ARCTIC

Spirit of Speed Arctic
WELCOME

Are you also hungry to get out after 1 year in partial isolation? We have created a Covid-19 adapted version of our Spirit of Speed Arctic program as Finland has still very high travel restrictions and our regular program cannot take place as planned. But due to this year's exceptional cold weather at our Estonian base we can still offer an **individualized and flexible winter program for very small groups**. As Estonia allows travelers to enter after being Covid-19 tested we are able to go against the stream and offer this experience. The experience will be "authentic" compared to our normal Spirit of Speed Arctic program – but it all adds to the experience during these special times, and the price has been adjusted accordingly.

It still remains an entirely unique winter race training with specially prepared air-cooled Porsche 911s, but we add an even more unique experience to the program if the weather allows. **You will get your "own" air-cooled Porsche 911 and your own iced 3,2 km racetrack**. Yes! Try this and you will be amazed... Spend half a day to a day at our racetrack and realize how the surface totally changes all you have ever experienced on a racetrack so far. This racetrack driving will be done with 1,5 mm spike tires to protect the track. Next day the cars will be fitted with real 7mm World Rally Championship Tires and we go to a lake!!! **A thrilling combination of real racetrack and lake ice tracks becoming the ideal playground to challenge yourself and "your" own Porsche 911 KALMAR RS.**

If what we already offer is still not enough, why not **take Tom Kristensen as your personal coach!** When did you last time get instructions from Mr. Le Mans himself? Common for all – learn to control a Porsche 911 on the limit but still having fun.

With a 9-times Le Mans winner behind the program, only the best driving is good enough. The handpicked mainly Scandinavian team offers bespoke and individual driving programs with **one instructor per two drivers and maximum 3 cars in total** during these Corona times.

We offer advanced driving time second to none and still keep a friendly atmosphere and "smiles per miles" count also up here. So, no matter if you are a first-time snow and ice driver or an experienced racer everyone you will benefit vastly from our unique style of training.

PROGRAMS

Spirit of Speed
ARCTIC CONTROL

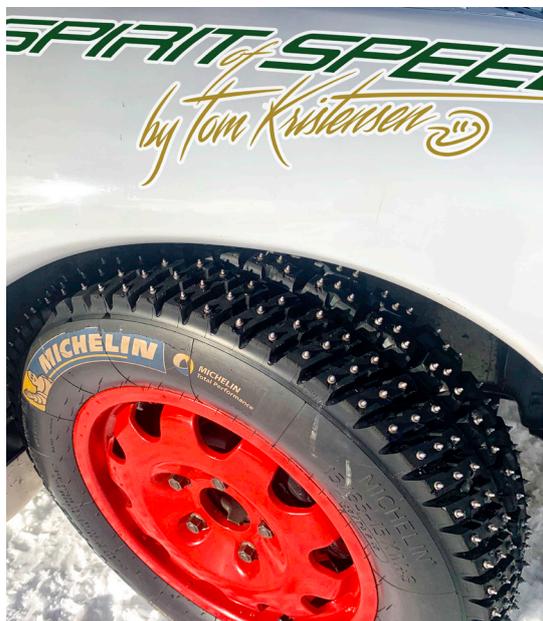

1

Experienced or first time on the ice?

Don't worry, we start out slow and finish fast. If you are inexperienced, we will do a short introduction and then we aim for you to master the fine art of ice driving. Together with your instructor you will define your perfect driving program with a combination of section training and full track driving to fit your individual skills and goals. Our unique intercom radio system makes communication with your instructor easy and comfortable. Lots of driving time spiced up with our very special "night driving" sessions are not to be missed - just like the tailor-made data acquisition system will add to our common aim to create the perfect drivers' paradise.

We start out with a theoretical briefing before we head to our race workshop to make a perfect seating position. When this is done let's go to the track and enjoy the freedom of sideways driving and when the track gets under your skin you can challenge the lap times.

Next day we get up early and drive to the lake where the fun starts and be ready for a once in a lifetime experience, as we have cut tracks out in the reeds in the shallow waters on the lake. You will be racing with narrow tracks and get a unique experience of speed on ice. We also have wide open tracks in varying lengths possible to combine to a 10-15 km track.

Spirit of Speed
ARCTIC RACE

2

It is all about speed and excitement!

This program is made for you who only want to drive on the lake and skip the racetrack experience. As during the Arctic Control program, we aim for "driving heaven" but it does not stop here! We add the stopwatch and we let you challenge the lap times - race against your co-driver and the others in the group.

To achieve this aim - we don't just tell you how to drive a stage, we teach you how to drive it as fast as possible - and let you push to and over the limit.

Spirit of Speed Arctic

PROGRAMS

ARRIVAL DAY

- Individual arrival at the Tallinn Airport in Estonia where a Corona test must be completed.
- The team meets you at the airport and shuttles you to our accommodation about 90 minutes away from the airport.
- Take your time to “quarantine” yourself in our nice seaside hotel for some hours until the test results come in. A great small hotel with a spa worth visiting, just like a walk on the bay is recommended.
- After the technical briefing a Welcome Dinner awaits you. By now you are surely ready to get rest before the action starts tomorrow.

DAY 1

- After an early breakfast, the team takes you to the racetrack where a unique combination of iced tracks and rally cars await you.
- A seat fitting by your personal mechanic will take place to ensure your comfort while driving the next days.
- Finally, a full day of training customized to your skills, abilities and goals! After a short introduction it is time for full track driving incl. individual data acquisition sessions.
- For the Arctic Race option we take you to the race workshop to make the seat fitting and then you drive “your” rally car to the lake about 90 min. away. Here you will experience a truly authentic warm wooden hut that will be our place for the next 2 days. When the mechanics change the tires to the WRC tires you and the instructor will take a slow lap on the tracks so you know what awaits you today.
- After hours of driving we shuttle you back to the hotel where the spa area for sure will be welcomed before a late dinner prepares you for a nice rest in the calm area.

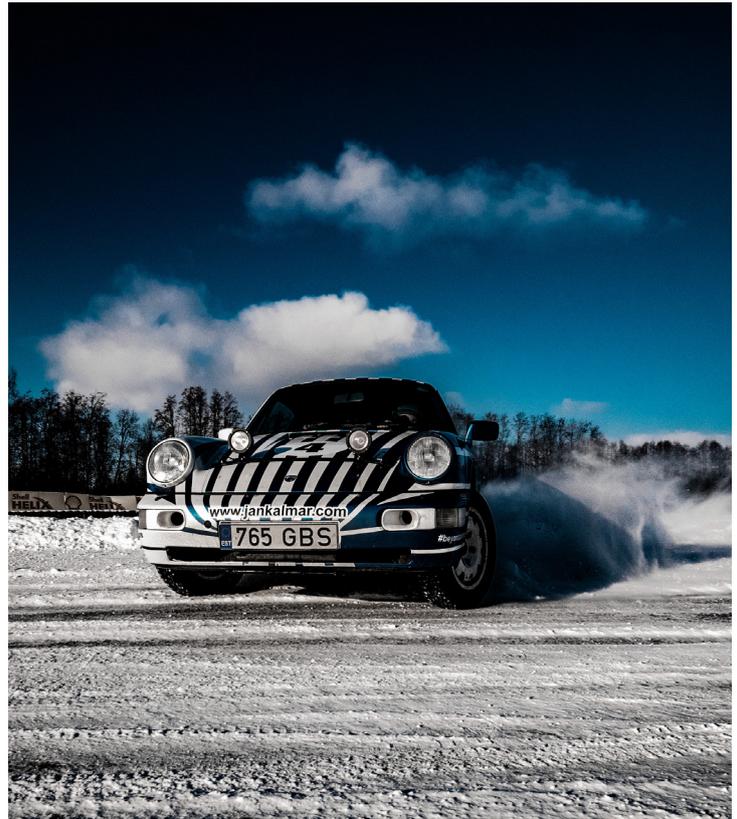

Spirit of Speed Arctic

PROGRAMS

DAY 2

- After an early breakfast, it is time to drive “your” rally car to the lake about 90 min. away. Here you will experience a truly authentic warm wooden hut that will be our place for the day. When the mechanics change the tires to the WRC tires you and the instructor will take a slow lap on the tracks so you know what awaits you today: customized ice driving.
- For the Arctic Race option we go back to the lake tracks where another even longer day on the lake is in front of you. Longer combined tracks and lap times are on the program.
- Surely tired but full of adrenaline, it is time to head back to the accommodation for the Farewell Dinner
- Depending on your travel program you will be shuttled to Tallinn or back to the hotel.

DEPARTURE DAY

- Breakfast is enjoyed and today can be a day to relax in the hotel or it is time to go back to Tallinn and start your home journey.

This [Video](#) gives a good taste of what to expect of Spirit of Speed Arctic.

Spirit of Speed Arctic

INSTRUCTORS

TOM KRISTENSEN

9 times Le Mans winner, FIA World Champion, F1 test driver - Tom surely needs no further introduction, and he can become your personal instructor.

JAN KALMAR

15 years of racing and coaching experience has created his own style and made him co-creator of our programs.

CHRISTINA NIELSEN

The first female driver to win an international SportsCar Championship series title. Being brought up with Le Mans on the menu at home, her experience is second to none.

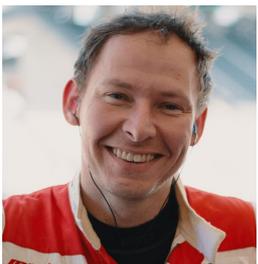

DENNIS LIND

Pro factory driver and with the DNA from a highly respected racing family. Dennis has a very high percentage of podiums and race wins including world titles.

TIM SVANHOLT

A life long rally addiction was surely founded when Tim watched his dad racing his Porsche RSR on the international rally-cross scene. Result was FIA European Rally Champion.

BENNY SIMONSEN

Danish racing driver with huge experience. With his driving talent, Benny will teach you all the moves you need to go dancing with your car.

FLEET

Porsche 911 (964/993) KALMAR RS

Modern Classics with manual transmission, no driving aids, rally prepared with sports seats, racing seat belts and roll cages. All cars are fitted with intercom and video systems for data acquisition to improve your driving skills rapidly. You will have your personal instructor and your mechanic with you throughout the entire event to ensure all suited for you.

**With Spirit of Speed Arctic you will experience
the real World Rally Championship Tires!**

The real World Rally Championship tires add a whole new dimension - this is not just a standard road tire with maybe a bit longer spikes. These are the exact works WRC tires which win the Swedish Winter Rally! Yes, we have access to the works tires so we can offer you the best winter rally tire ever produced. 135 mm narrow, each tire is fitted with tungsten-tipped metal spikes that protrude from the tread by between six and seven millimeters. 384 studs in total! The result is lap times and control superior to any tire offered at other trainings.

How about having your own dream car fully customized and perfectly suited for your own wishes and our Spirit of Speed programs? With [KALMAR Automotive](#) we offer the next level of customization! When you choose to have your own car build, you can always use it at the Spirit of Speed or Beyond Adventure programs, the team will happily service and maintain the car. This will of course be in between you use it for your own drives.

Spirit of Speed Arctic

LOCATION

We are proud to have our “Home” location and we do not have to share the area or even tracks with other drivers. Our “new” area is located remote and surrounded by wilderness and unspoiled nature. Our Hedon hotel is located in the sleepy coastal resort village Pärnu, Estonia. A popular and vibrant summer location at the Baltic Sea.

Tallinn Airport is easy reached with direct flights from some European airports. We will handle all shuttles to and from the driving areas and hotel.

The Audru Ring is a new 3,2 km FIA approved racetrack in Pärnu and the Sadam Siku Lake is the second largest in Estonia so we have enough space to play on. It offers during these times the ideal location for our Spirit of Speed Arctic program. It is demanding to find the ideal lines on the racetrack just like the reed tracks will be something you will never forget. Both will become the battlefield and playground for you and will reward you for building up skills whilst flying fast and sideways with big smiles.

ACCOMMODATION

This Corona version of Spirit of speed does still offer a special location. Pärnu was for good reason one of the favorite locations for the absolute top of the Soviet Union leaders and our hotel spa was built for this purpose in the past. The hotel itself is small and cozy right at the beach. Like we always say with Jan Kalmar Beyond Adventure, we always stay at the best available places and this is also the case here. You and your fellow “rally drivers” will enjoy the Spirit of Speed at **Hedon Hotel and Spa**. Many stories are surely being told at the dinners. We offer a full-service memorable stay which is not found elsewhere.

INFORMATION

This Covid-19 version of Spirit of Speed Arctic is a last-minute alternative due to the pandemic. We do not have the same facilities as in Levi, Finland, but we guarantee an unforgettable experience at a very different price level. We still have the same high quality on all our services but there are limitations in the area. Due to the worldwide situation we must be flexible and since we are much further south it also makes it more weather unsafe. So there can be last minute changes as well as local or national short notice lockdowns can force us to quick changes.

All payments are fully refundable up to 5 days before the event starts and minimum 50% if the cancellation takes place within 5 days before the start of the event. Each participant is responsible on its own to fulfil all travel regulations and Corona test requirements at arrival or departure. PCR tests can be organized locally.

PRICE & DATES

DURATION AND DATES:

Wave 1 Spirit of Speed Arctic Control | 1-4 March 2021

Wave 2 Spirit of Speed Arctic Race | 5-8 March 2021

PRICE PER PERSON:
